

South Africa

Itinerary Suggested:

- Cape Town
- The Winelands
- Kruger Big 5 Safari

Activity Highlights:

- Animal conservation projects are a great way to see how safari companies are protecting endangered wildlife such as the Rhino and Pangolin.
- As an extension to a Kruger safari, spend time with a Shangaan community. A local guide will escort you through the village, sharing insight and narratives about local culture, customs, beliefs and traditions.

Impact and Sustainability:

- Transport: Carbon off-set via Choose
- Animal Conservation: support and visit a local project.
- Accommodation: Carbon neutral and carbon positive hotels, with many safaris lodges and hotels built on a small scale with an understanding of both their impact on the surrounding ecosystem as well as reducing poverty as an employer.

Carbon off-setting via Choose

The CHOOOSE platform provides tools for integrating climate action into any customer experience through automated emissions calculations, dynamic sustainability scores, climate program reporting, and a vetted marketplace of carbon removals, sustainable aviation fuel (SAF), and offsets.
