Landscape

Spread over approximately 90,000 square kilometres, the Maldives is one of the most separated countries in the world. Grouped in a double chain of 26 atolls, only 200 of almost 1,200 islands are inhabited, with one third of the Maldives' population living on the tiny island capital Malé.

The atolls of the Maldives are formed from coral structures, separated by lagoons. The atolls are in fact part of a greater structure known as the Laccadives-Chagos Ridge, which stretches over 2000 kilometres.

The sea covers 99% of the Maldives' low lying islands, with the highest point reaching only 8 feet above sea level. 'Faru' or ring-shaped reef structures form the atolls and these reefs provide natural defense for these delicate islands against the wind and waves. Capture dream-like natural beauty as the mood takes you, with these pearl strung isles inviting travellers to explore pristine coral reefs, or to unwind on white palm-fringed coral-sand beaches to the slow rhythm of island life, contemplating the oceanic light evolving from morning glow to evening dusk.

People

The Maldivian ethnic identity stems from a blend of the islands' earliest settlers from southern India and Sri Lanka, creating a unique traditional culture like no other. Today's local people are known as "Dhivehis", thought to originate from the Sanskrit word "Daivehi" meaning "Godly", and it is their tongue which is the official national language.

Weather

Straddling the equator, the Maldives enjoys a warm tropical climate with temperatures ranging between 23°C and 32°C accompanied by light ocean breezes. The Maldives experiences two distinct seasons between May to October and November to April. Lightweight cottons and linens are recommended throughout the year. Light waterproofs may be useful.

Arrival

Our airport representative will meet you upon arrival at Malé International Airport and guide you to one of our speedboats. Then begins the 35 minute scenic journey across the sparkling emerald waters to Anantara's lagoon, on the edge of the South Malé Atoll.

Tips for travellers

- ◆ Maldivians are incredibly friendly, and learning just a few common phrases in Dhivehi is sure to make the locals smile.
- ◆ All visitors to the Maldives receive a 30 day tourist visa on arrival from immigration at the airport.
- ◆ As it is prohibited to bring any alcohol into the Maldives, alcohol is only available at resorts. The capital Malé is “dry”, as is Malé International Airport.
- ◆ If you take an electronic device that does not accept 230 volts; 50Hz, then you might require a voltage converter.

- 
- ◆ Tourists visiting Malé or one of the local islands for an excursion, are asked to dress modestly with shoulders and thighs covered as a mark of respect for the Maldivian culture.
 - ◆ Please take care not to touch, stand on, or collect coral during your stay, as only by protecting the fragile reefs can future travellers be assured of experiencing this natural wonder.
